#### It's Never Too Late To Mend

This is really not a good adage at all, particularly when applied to the roof of your house. It should be kept in good Now is the time to have this attended to! The howling driving snows of last winter that put your gutter pipes out of commission, and dripped in under your caves when it thawed didn't wait. Don't you! A small leak can do immense damage to the ceilings and walls in the interior of your home. The cost to repair your streaked wall paper and wet plaster would easily triple the expense of what you would pay to have your roof repaired now. Beat old man winter this year. Don't let him beat you.

A sound roof is not merely a prosaic lid to an edifice. It protects your entire family from the elements in time of festivity or sickness. It assures the same coverage to the family Christmas party as it does six months later when daughter is entertaining her sorority sisters. Don't be a goof! Be good

#### The Value Of Newton's Churches

It has been said reverently that church is God's work shop. church so much can be accomplished by divine worship. We in Newton are most fortunate in having so many edifices which serve our spiritual need. Almost every faith represented. This gives us the opportunity of being worshipful

according to the religion of our own choice. Without churches, Newton would be an empty city of ma-terialism. We should be very grateful for the fine work they are doing. Perhaps the most important work they accomplish

is their dealings with the young people when they are in the formative periods of their lives. A young person that is firmly established with spirituality will have this perpetuated through adult life. There are some people who "put off" going to church and are not affiliated with any religious organization. We humbly invite you to join a place of worship and become a member of

the group. You will reap a rich reward.

The churches in Newton are here for all to use. Start attending next Sunday.

#### The Danger Season For Fires

The Boston Board of Fire Underwriters, Inc., calls atten-to the several recent fires that have taken the lives of children in Greater Boston and points out that this is a season of many fire hazards.

Herbert L. McNary, executive manager, declares that the Boston Board reports show-a great many fires being caused by defective and carelessly handled oil ranges and heaters. During months of idleness many have become clogged or rusted with the result flash fires may result from any one of several sources.

Flash fires are caused by explosions. This means the ignit-ing of some form of gas or vapor. Fuels give off vapor and if these accumulate under pressure even a static spark may be There are cases on record of such fires being started by a cat walking through the room, static being generated from

## Hallowe'en Parties Are **An Outstanding Success**

Six weeks of tireless planning on the part of more than 1400 committee members culminated last Saturday night in a Hallowe'en celebration which must stand as a record-breaking civic event. More than 10,000 children of all ages, who participated in the 240 separate parties, voted this year's Hallowe'en as "something out of this world." Obviously, the planners and directors of the 1948 neighborhood gatherings have set a mark which it will be very difficult to better in the years to come.

Beyond question, this unique city-wide celebration is a tribute | Hallowe'en celebrations have in

city-wide celebration is a tribute to Newton and to the civic spirit, and unselfish devotion of respect for other people's bethe many hundreds of workers longings and an appreciation of to Newton and to the civic spirit and unselfish devotion of the many hundreds of workers who make it possible. Certainly it is to be doubted whether any other community of comparable size offers such a splendid example of co-operative effort—an effort, it should be added, that

springs from the heart.
From the tiniest tots, who attended afternoon parties, to the high school students, dancing up at the Totem Pole, came ex-pressions of delight—sweet mu-sic, surely, for the ears of those earnest and eager mothers and fathers who gave their best that the children might have a long-remembered Hallowe'en celebra-tion. A veritable kaleidoscope of

events and stunts was spread be-fore the youngsters. Spooks, witches, clowns, fortune tellers, magicians; movies to fit various age levels; games, athletic events, square and ballroom dancing; music from orchestras, juke box-es and phonographs; Chamber of Horrors, with screetch-inof Horrors, with screeten-in-ducers invented either by an ar-ray of geniuses or borrowed shamelessly from the innermost sanctum of the International Brotherhood of Spooks and Ghosts. And everywhere—in the kindergartens, the elementary schools, and in the Junior Highs -the inevitable shouts and yells and high-pitched laughter of happy young folks that may be hard on adult eardums, but are so good to hear because they denote uninhibited joy. More than one middle-aged listener, it can be said, would have given half the gold stored down at Fort Knox, Kentucky, to be in there

with those roaring rollicking youngsters, screeching his head off with the joudest of them! Making the rounds of the parties were Mayor Lockwood, Howard Whitmore, Jr., General Howard Whitmore, Jr., General Howard Whitmore, Jr., General Howard Whitmore, Jr., General Chairman, Mrs Ragna Hoygaard, Program Chairman, Dr. Homer Anderson Superintendent of Schools, C. Edwards who has been an active supporter of the celebraticn since the beginning, Police Chief Philip Purcell, Fire Chief Keating, coordinators of the various villages, and others who evidenced their intense interest by rushing from location to location.

As Howard Whitmore, Jr., ex-

pressed it: "The Newton Hallowe'en Parties of 1948, held in schools, churches, clubhouses and at the Totem Pole, were again an outstanding success. More people, young and not so young, enthusiastically participated in this annual city-wide recreational endeavor than in any previous

year.

the fact that a good time may be had in an orderly decent, whole-some way. In this laudable obthe reduction of jective-in

jective—in the reduction of juvenille delinquency—Newton's civic Hallowe'en events have been eminently successful. It is clear that the rising generation is becoming increasingly aware of the fundamentals of good elizenship.

In this connection, it is interesting to note the words of Chief of Police Philip Purcell, who expressed great enthusiasm for the parties and the results achieved. "I visited many of the parties," he said, "and I was much impressed by the good, wholesome fun the children were having. It was evident that they were thoroughly enjoying them. were thoroughly enjoying them-selves. We had all our men out," he said, with a smile, "just in case. But they had little to do. There was very little vandalism. A few street lamps were broken, several false alarms were pulled and a number of windowpanes were decorated with soap mark-ings. Take it all in all, though, there was hardly any more damage than we get on any or-dinary night, and we met very few roving bands of youngsters bent on mischief. The whole thing was very gratifying. And I can tell you we feel pretty good about it all."

Mrs. Ragna Hovgaard, Pro-

gram Chairman, voiced her gra-titude to all committee members for the wonderful job they did. "The parties were better attend-ed," she said, "than ever before. Everywhere there was marked improvement in the size of the parties, in the spirit shown by the children and in the programs Even though I have been in close touch with committee activities since planning began the middle of September, and have known how much work was work out fine programs. Every party showed that behind it there were women and men who were not content with half-way measures; only the best would be good enough for their children. The spirit running through the entire organization is respon-sible for the most brilliantly successful parties I have seen since we started them eight years o location.

As Howard Whitmore, Jr., exressed it: "The Newton Hallowlon Parties of 1948, held in the second of the wonderful co-operation everyone offered so freely—and I am grateful beyond words to all those good people who worked so hard and so cheerfully to give such a wonderful evening to all our 10,000 children."

In 1919 the New York Times was the only newspaper in the world to print the complete draft of the treaty of Versailles.

Newton has raised \$154,732 in the Red Feather Campaign, Newton has raised \$154,732 in the Red Feather Campaign, according to a statement made early this week by Riley Hampton, Newton Chairman. This is 49.1 per cent of the Newton goal of \$315,000, and this amount was announced at the first report luncheon of the Greater Boston Community Fund on Monday of this week at the Boston City Club.

Chairman Hampton has issued a challenge to Fred Stockwell, C. A. as physical director from about 1916 to 1922.

Doubleday left Newton to bereport day, November 19, than will Cambridge. Mr. Stockwell had previously made the state-ment before a large gathering that although Newton was

ment before a large gathering that although Newton was ahead of Cambridge in the early stages of the Campaign last year, on the final report date Cambridge passed Newton. Mr. Hampton's challenge was gladly accepted by Mr. Stockwell. Cambridge reported 35.3 per cent of goal reached on Monday. Monday was 35 per cent day at the first report luncheon, and sixteen metropolitan cities and towns reached that objective. Canton led with 65.7 per cent, with Wellesley second at 58.6 per cent, followed by Medfield, Dover, Lincoln, and Newton, all at just about the 50 per cent figure. The total of all divisions reported at the luncheon was \$2.457.456, or 35.4 per cent of the combined Cambridge control complex cent of the combined Cambridge control cambridge control company control cambridge complex cent.

#### Man's Best Friend

Dog is man's best friend; but is man dog's best friend? Many of our licensed dogs in Newton are not receiving the necessary canine care. This negligence is not deliberate, but people forget or junior is too tired. At night make sure that your favorite hound is housed in his own dog house or that a comfortable corner of the cellar, kitchen or garage is available. After all you wouldn't lock out any member of your family all right.

Most of us in Newton give our dogs a good chance to exercise. However, if you are in a locale that warrants the tying up of

your dog make sure he has some exercise each day.

Don't let your pup be one of the leaders in the "garbage brigade". Sure dogs will be dogs, but feed him at home and regularly. Make each day "Dog Day" for your pet!

#### The Common Cold

Reams of statistics have been written about the common cold. The facts are terrifying as well as boring. Colds are responsible for millions of lost man hours each year. Colds often lead to pneumonia, tuberculosis and other involved complications.

We could go on ad infinitum.

The thing to be remembered it is not like Mark Twain's weather, something can be done about it. An ounce of prevention is worth a million remedies either professional or the of home

Do not get over tired, keep warm, wear water proof footwear, eat three sensible meals each day and above all do not cough or blow at other people. You must not be one of these offenders

who spread their colds to a dozen other people.

We are sure that you can go through the winter with less colds if you take more precaution.

#### Traffic Rules Demand Cooperation

The Newton Police Department Traffic Bureau would like to impress upon the citizens of this City the importance of co-

operation between pedestrians and operators of motor vehicles with the laws and safety of the highways.

As matters stand, they are both looking forward to saving that extra second which usually ends in tragedies, wasting hours, days, and sometimes even months of confinement to bed caused through accidents due to carelessness and inattentiveness.

\*This is an increase of more than 30

per cent over the electrical generating capacity available Nov. 1, 1948.

Just six months ago we announced with pride that the electric light and power companies of New England were building a record-breaking total of 834,000 Kilowatts of new generating capacity to be at your service by 1952.

Since that announcement last spring you have steadily increased your use of electricity and in quick response we have enlarged our plans for staying ahead of

Today we announce that 206,000 MORE Kilowatts have been added to the program. Now, Instead of 834,000 Kilowatts, your electric light and power companies of New England are building ONE MILLION AND FORTY THOUSAND Kilowatts\* of new electrical energy, all of it scheduled for service by the original date of 1952.

And already plans are being projected even further into the future for the continued safeguarding of New England's electrical welfare.

# A STATEMENT OF POLICY ON G. I. HOME LOANS

We have helped many Veterans to home ownership, and look forward to helping many more. Unfortunately, there are times when we cannot, with a clear conscience, approve a Veteran's application for a home loan, for one of two reasons;

The price of the house is too high. In all fairness to the ex-serviceman we cannot approve loans where the house is overpriced. The Veterans Bureau also refuses to approve such The Veteran's income is too low. We do not consider it helpful to involve a Veteran in debt beyond his means. Don't buy a home today that you can't afford tomorrow.

All Veterans are urged to bring their home financing problems to us with the knowledge that we will give them our best advice and

## **One Thousand Lay Members At Church Canvass Dinner**

Nearly one thousand lay members of the Protestant Churches of Newton swarmed into the Totem Pole at Norumbega Park, Auburndale, for a Canvass Dinner and Rally and to hear principal speaker, Dr. George Stewart, author, minister, Army Intelligence officer, speak on the purpose of the United Church Canvass. "When the hand ceases to scatter the heart ceases to pray", the speaker quoted an old Irish saying expressive of the nature of giving. He pointed out how the ancient Jewish people and many of the best Christian folk set aside one-tenth of all their income to return to the Lord who has created and sustained them. In making a plea to the return to this ideal he suggested that if the uninspired average church member would merely give an amount equal to his cigarette money, or his liquor bill, or his club dues, the churches would be able to increase the faith in all the world and could afford missionaries in China and Africa in the

Questionnaires are being mailed out to 1,200 individuals and, the validity of the results will depend upon the cooperation of the community in returning these questionnaires. Questions pertain to various Red Cross services in which the community is asked to indicate their approval, dislike, indifference, or lack of knowledge. Other questions are designed to find out if there are any services which we are not rendering at the present time and which the community feels we should be. The community study is going to be made in four parts: the first of which will be to conduct

#### Thanksgiving

By official proclamation, the fourth Thursday of November is to be observed as a general day for giving thanks. This is a very idealistic and splendid idea.

It is a traditional day that we all remember from childhood. It is a day for family gatherings, perhaps a football game or a brisk walk in the morning and a cozy inviting fire in the fireplace in the afternoon after you have eaten so much that you are just content to sit. As the day approaches we can already visualize the roast turkey and all the fixins. We can just smell the tantalizing aroma of the pumpkin pie being taken out of the oven.

Instead of having a special day set aside by official proclamation for Thanksgiving let us ourselves proclaim every day of the for Thanksgiving.

We here in America have so much to be thankful for.

We here in America have so much to be thankful for. We should pause and reflect a few moments each day and consider our many blessings. So much is taken for granted by our "rushing" citizens. This is not due to their lack of thoughtfulness but to the hum-drum lives they lead.

Don't forget the giving part of Thanksgiving. This is not restricted to giving of your material possessions alone; it is giving of yourself as well. Often time a helping hand, a comforting word or a listening ear is even more appreciated than metalial assistance. Don't wait until your neighbor or friend material assistance. Don't wait until your neighbor or friend is in need of help. Give a little of yourself every day. Quite often you will find that it is easier for the business magnate to give a large check and then forget about the giving. You will seek an inner peace of mind when you know that you are helping

We wish all our readers a very happy Thanksgiving.

## The High Cost Of Living

wise! Purchasing right here in Newton you can save on most every item that is necessary for your entire household.
We have fine markets, clothing, furniture, hardware and other splendid stores that cover a general line of merchandise of every conceivable definition.

While we are on the subject let us tell you how proud we are that so many magnificent emporiums use us as their advertising media. Be loyal to Newton and purchase your every day needs from the advertisers of this paper.

We are not pollsters but we can predict with certainty that the Christmas season is approaching rapidly. We are also sure that the stores in the big city will be crowded. Save your money and save yourself! Buy with pleasure from your friend and neighbor. The Newton Store Keeper!

#### Drive Carefully At Night

Much has been said and will continue to be said relative to driving safely with due regard to pedestrians and children during these bad winter months.

Statistics show that in most accidents involving pedestrians after dark, much of the blame or cause is not wholly on the motorist. In the majority of cases so far, the Newton Traffic Division has established that elderly people wear dark clothing and cross various streets at the wrong places, as regards the lighting from street lights and failing to use the pedestrian walks

and lights at intersections.

The general public is advised to take an interest in their own particular families, and endeavor to have their loved ones wear something light in color at night when they are out, such as a scarf or hat, and cross streets where the best lighting is available in their course of travel.

It is fully understood by the police department that elders feel that they are perfectly able to care for themselves, as it is positive proof that by their care we are alive and healthy today but it is our duty now in their declining years of life to rekindle the fire of danger to them while they are out of our sight, and to at least feel in our own minds that whatever may happen is not caused by our indifference, thoughtlessness or carelessness. How many times have we heard the expression. "Had I known that was going to happen, I would have done differently, but now it is too late".

#### SYNOPSIS OF THE LAW On Making Contracts

By Arthur W. Blakemore, Attorney

(The right to print, or reprint, any or all of these articles, is prohibited without permission of the author)

Every man thinks he can draw his own contracts, and perhaps he can, but there are many pitfalls which he must avoid. In the first place a contract to be binding should express in some form consideration, to show it is not a mere gratuitous promise. The best form may be to state the names of the parties and that they agree as follows: "The agreements of each party being the consideration for the agreements of the other," and then state their agreements in numbered paragraphs followed by the signatures

One common cause of dispute is the meaning of technical words, which should be carefully construed by reference to standard practice or some other method. Many common words we all use are subject to different meanings depending on the contract. In a building contract the rights and duties of the architect have caused much test and the contract the rights and duties of the contract and the contract the rights and duties of the contract and the contract the rights and duties of the contract and the contract the rights and duties of the contract the rights are contract. meanings depending on the context, and the contract should leave no doubt which meaning is intended. The terms "profits" or "net profits" may mean almost anything and may or may not include the overhead expenses, or the capital expense, or depreciation or various other. or depreciation, or various other items too numerous to mention.

best return for your money. For instance, if small eggs weighing 18 ounces are 57 cents a dozen (3\frac{1}{2}\) cents an ounce) they are a better buy than medium eggs weighing 21 ounces at 79 cents a dozen (3\frac{1}{2}\) cents an ounce). Thus at present, small or peewee eggs are the best buy.

Small or pullet eggs are seldom on the market except in the summer and fall, when they are usually a very good buy. QUALITY: The safest guide to egg quality is the U. S. grade QUALITY: The satest guide to egg quanty is the U. S. grades label and the date stamped on the carton. The U. S. Grades are AA, A, B, and C. Grades AA and A are usually preferred for cooking in the shell and poaching. For cooking purposes the lower grade eggs may be used.

The color of the egg shell depends on the breed of the hear

and does not indicate the food value of the egg. So do not pay a higher price for white shelled eggs—or for brown ones. Buy whichever is less expensive, because the food value is the same. FOOD VALUE: Eggs are excellent as a substitute for meat in

main dishes The high quality protein, plus iron, Vitamin A, Ribodiavin, Thiamine, and some Vitamin D are all stored up for us inside each egg shell. Take advantage of this.

CARE: Once the homemaker has bought eggs, she has the

responsibility for holding up the quality she has paid for. She should not leave the eggs in a hot automobile while she goes on a shopping tour, or let them wait out on the kitchen table at home. Eggs should be put in the refrigerator promptly, in a covered container so that they will not lose moisture or absorb

flavors from other foods.

The duration of the contract and the right to terminate it should be carefully stated and it may sometimes be wise to insert an arbitration clause to settle disputes if such a clause is binding under the circumstances. Parties sometimes insert, especially in a building contract, a penalty for non-compilance or delay, and it should.

## Trail Tales

During the past 60 years the School of Nursing at your Newton-Wellesley Hospital has prepared 1248 professional nursés who have battled disease and cared for the sick in every state in the nation and throughout the world.

This week, as the women in white caps celebrate their Diamond Jubilee, the local School of progress that began when professional nursing was still in its infancy in America.

It was England's Florence Nightingale, the "Lady with the Lamp," who created a new profession out of centuries of ignorance and superstition. The elements of modern nursing as she setablished at the largest hospitals and Alaska, serving with the army, Navy, Red Cross and UNRRA.

Rhother week has gone by, and we're that much closer to bethe best skis cason ever. The weeks have been shussing by as if they were in a down-hill race. It won't be long before we hear carols and at our of several sporting goods at our of several sporting goods

A year has passed since the Olympics, and there are three years before the next games, but Olympic talk is still rampant in ski circles. A thoughtful fan brought to my attention an interesting article in Ski magazine. It asks a very good question indeed, "How was the \$50,000 Olympic Ski Fund spent?" So far no report has been made, and since you and I and every other skier contributed to that fund, I think we deserve to know what happened to it.

American Olympic teams have

American Olympic teams have always had less preparation than foreign teams. This is an obvious disadvantage, one that should be eliminated as soon as possible. In most foreign countries, large groups of prospects are trained for two or three years before the games. The teams are drawn from these prospects. I think a similar plan in America would mean a lot for our Olympic

chances.

## No One Must Be Defaulter In Sight of God, States Lucius E. Thayer in Sermon

"May no one in this Church be a defaulter in the sight of God," was the concluding plea of a sermon preached by Lucius E. Thayer at the Church of the Messiah, Auburndale in connection with the City-wide Laymen's Sunday observance of the United Church Canvass. Mr. Thayer, past-President of the Newton Council of Churches and current Co-chairman of the United Church Canvass, was one of several prominent laymen who spoke in the pulpits of the Protestant Churches of Newton yesterday.

rits of the Protestant Churches of Newton yesterday.

The speaker said in part:

"I am going to ask you to rethink with me this morning the problem of the Christian Church with absolute frankness and realism. The problems of our day are as ancient as original sin but the atomic age has made them a matter of life and death for all of us. When the armed forces of paganism and materialism sought to overwhelm us. we gave of our time, blood, and treasure without stint. However, the battle for

"I have heard men say that they didn't come to church be-cause they didn't like the music or the preaching. I would sug gest they try coming to church not the Choir Director or the Minister; to see how much they will get. For 'he that loseth his life will find it.'

life will find it.'

"We must contribute as if we cared whither we have a Christian or a communist world. We are to have the chance on November 28 which is "Say 'YES' to your faith" Sunday. I need not remind you that the church today stands in no different position than any of us; it must pay more for everything it buys. This church is supported by a number of small gifts which is the democratic way and just is the democratic way and just as it should be. But those who are giving \$25 must think this through and give \$50. It is the most important insurance you will ever pay.

"We are bought with a great price. Part of that price has only recently been paid with the lives of the youth of this nation, this community, this church self-deception which I beleive is so childish and face the basic facts of the day in which we live. It is evil and greed in the hearts of men that are at the base of all our difficulties. The problem is just as simple as that and just as difficult of solution as that. #### **Dual Meeting of Cub** And Pack to be Held

A dual meeting of Cub Scouts and parents of Pack 15 will be held Monday, November 29, at 7:30 p.m. at the Auburndale Con-gregational Church Parish House. This first pack meeting of the season will be led by Robert Blakeslee, the new assistant cubmaster. Later in the season Mr. Blakeslee will become cub-master of Pack 15, upon the re-tirement of Curtis Reed, who has been Pack 15's able and very

popular master for eight ears. While the boys are enjoying an excellent program and refreshments, the parents will meet together with Mr. Reed to dis-cuss plans for reorganization of the Pack with increased participation by Cub parents. At the meeting a co-ordinated yearly program for the dens will be presented for consideration. This program will include such an in-novation as one regular monthly meeting on Saturday afternoons to be conducted by the Den fa-thers, who will take the boys on expeditions of interest and fun. This is an important meeting for Pack 15. It is hoped that each and every Cub and parent will attend.

A bill for merit rating for compulsory automobile insurance was filed Monday by Senator Richard H. Lee of Newton. Under the terms of this proposal, motorists not guilty of causing any accidents or traffic violations would pay a lower rate than those with accident records and the amount of the premium would have nothing to do with the city or town in which the car is garaged.

At the present time the rates are based upon the accident record of the municipality where

record of the municipality where the car is garaged regardless of the individual record of the car owner. Premiums vary from a high of \$60.40 for cars garaged owner. Premiums vary from a high of \$60.40 for cars garaged in Chelsea to a low of \$16.50 in certain rural areas, making a difference of more than \$43.00 between these extreme rates. Under the Lee bill, the basic

## Don't Gamble with your Family's Safety

A legal flaw in your arrangements for your family's welfare after your passing may result in heavy loss for those whom you want to protect.

Such a defect may exist without your knowing it: a result, for instance, of new laws enacted since your will was made,

Don't take that chance with your family's future. The smaller your estate, the less able will they be to endure necessary losses resulting from legal technicalities you never heard of.

Make sure your beneficiaries will be legally safe. Your lawyer's fee for that assurance will be a highly profitable investment in family pro-tection. See him without delay.

I am back again in New York City to get the pulse. New York City is no longer the business center of the United States. This has long ago moved to the "Magic Circle," including the states of Illinois, Iowa, Kansas, Nebraska, Texas, Oklahoma and Missouri. On the other hand, all merchants, manufacturers and bankers—wherever located—still go to New York City to buy their goods and sell their wares.
